

The Integration of Audio Visual and IT Technology

In classrooms, hotels, conference centers, control centers, and corporate America – that's where you will find the work of Onepath Systems.

As the convergence of AV technology and IT accelerates, it is critical that your AV Integrator have a thorough understanding of the latest technology and systems. Onepath brings a unique combination of skills and experience to the marketplace whether your firm is looking to acquire a fully integrated AV presentation system for your conference room, desiring to add video conferencing capabilities to tie a series of offices together or simply looking to upgrade your current system with the latest technologies.

At Onepath, our AV mission is to help our customers deliver and communicate their messages - easily and effectively. We do this by providing products and services that are easy to use and project the customers' best image. Our Total AV Integrated Solutions are used by clients in the following markets:

- Corporate
- Lodging & Hospitality
- Education
- Government
- Healthcare
- Houses of Worship

Onepath offers a complete line of AV products

- Video Projectors from NEC, Epson, Sanyo, Panasonic and Christie
- Screens and hardware from Da-Lite, Draper and Chief
- Audio systems from Crestron, Polycom, Shure
- Control Systems from Crestron, Extron and AMX
- Smart Board Technology
- Video Conferencing Systems from Tandberg, Polycom and LifeSize
- Flat Panel Displays from NEC, Panasonic, Sony, LG, Samsung and many others
- Digital Signage Solutions

In classrooms, hotels, conference centers, control centers, and corporate America – that's where you will find the AV systems from Onepath. We serve large corporations and small businesses. And we proudly serve them all with the same core value of exceeding our customer's expectations.
