## Benefits to Working with Onepath and Cisco

As a Cisco Premier Certified Partner, Onepath is recognized for investing in and training a highly skilled team to serve its clients. Onepath can deliver integrated network infrastructure solutions that support key Cisco technologies. As a Cisco Premier Certified Partner, we offer:

**Value:** Combining Cisco expertise with our own value-added services portfolio, we are uniquely positioned to serve as your trusted technology advisor.

**Proven technical expertise:** Maintaining the multiple technology specializations required for Premier Certification means Onepath can integrate technologies to deliver the more sophisticated solutions your business demands.

**Focus on customer satisfaction:** With access to the same online customer satisfaction evaluation tools Cisco uses to evaluate its own performance, Onepath can identify strengths and develop targeted plans to serve your needs.

## Authorized Technology Provider

The Cisco ATP Program is an invitation-only program. Onepath possess relevant job/industry/market credentials in ATP focused technologies.

## Physical Security Products

End-to-end Cisco Physical Security products offer video-surveillance and access-control solutions that are easy to integrate with your existing physical security infrastructure.

## Advanced Unified Communications

The Cisco Advanced Unified Communications Specialization includes the following Unified Communications Solutions:

- IP Telephony
- Video conferencing
- Integrated voice and Web conferencing
- Mobile IP soft phones
- Voicemail / Unified Messaging

## TelePresence

Together we power the new way of working, where everyone, everywhere can be more productive through face-to-face collaboration.

## Digital Media Suite

Learn, Grow, Communicate, and Collaborate. With webcasting and video sharing, digital signage, and business IPTV applications, Cisco Digital Media Suite can transform your business.
