

FIRE and LIFE SAFETY

Protecting Lives and More

Nothing is more precious than the lives of your employees, staff, students, patients or customers.

Onepath Systems is a proud partner with NOTIFIER®

For over 50 years, NOTIFIER has been in a leadership position in the fire alarm industry. They are the largest manufacturer of engineered fire alarm systems with over 400 distributors worldwide and regional support operations on every continent helping to ensure we provide the flexibility and options your business needs. Like Onepath, their commitment to products and partnerships is what propels NOTIFIER to stand proudly above the rest.

We are Fire and Life Safety Systems consultants. Design engineers. Customer service professionals. Installation specialists. Certified service technicians. When you choose Onepath, you're getting experts committed to providing a Fire and Life Safety System that will deliver maximum safety for your specific venue.

We accomplish this by designing, installing and maintaining a state of the art Fire and Life Safety system. It is always our goal to surpass industry standards and to provide our customers with a seamless installation of a system that lives can depend on.

Onepath's Fire and Life Safety Systems are designed to meet a wide range of protection applications. From small retail stores to towering high-rise commercial buildings; from an entire school system to a sprawling university campus. Onepath is dedicated to providing the most intelligent Fire and Life Safety Systems engineered to fit the unique protection needs of your facility. Our services include:

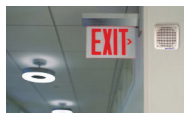

- Engineering, design, installation, inspection and maintenance
- Deficiency reporting
- Engineering and permitting
- Monitoring

• **ONYX FirstVision:** A revolutionary wayfinding touch-screen PC for firefighters. Simplifies emergency scene assessment by pinpointing the origin and migration of a fire from the building lobby.

• **ONYX Intelligent Sensing Technology:** Delivers rapid, intelligent response to incipient fire signatures while substantially reducing nuisance alarms.

• **ONYXWorks:** A PC based graphical workstation, is NOTIFIER's next generation, advanced technology for integrating fire alarm, security, card access, CCTV, and other key information in your facility.

• **ONYX ExitPoint:** Acts as an audible exit sign that helps building occupants pinpoint the nearest exit location and guides them to the building exit quickly, reliably and safely—even when visibility is impaired

• **NOTIFY-IP Mass Notification:** Generates live, direct, global voice instructions for property or life preserving actions via the internet during a fire, security or other emergency.
